## **DETAILED ACTION**

### ***Remarks***

This Office action is responsive to applicant's amendment filed December 17, 2003 and November 4, 2003.

Claims 1 and 2 are pending for consideration.

### ***Claim Rejections - 35 USC § 112***

The rejection of claim 6 under 35 U.S.C. 112, first paragraph is deemed moot in view of the cancellation of this claim.

### ***Claim Rejections - 35 USC § 102***

The rejection of claims 1 and 2 under 35 U.S.C. 102(b) based on Narukawa et al. (U.S. Pat. 5,556,722) has been withdrawn.

### ***Allowable Subject Matter***

Claims 1 and 2 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record and to the examiner's knowledge do not teach or render obvious at least to the skilled artisan the instant invention regarding a portion of a front wall of a battery case being recessed and protruding into the inside of the battery case. A forthcoming rejection based on Narukawa et al. is precluded as Narukawa et al.'s teaching of a battery casing being "thicker in

its corner regions than in straight line regions" merely defines the cross-sectional thickness of the battery wall and does not define a recessed portion protruding into the inside of the battery case, i.e. a concave portion of the battery case as shown by the present application by reference numeral [10] in Figure 2.
